Hi Juan,
I met you briefly at one of PATH's neighborhood watch meetings earlier this year and have emailed you in the past.

This past weekend on Sunday there was a fire across from our property ignited from inside a homeless encampment (N Madison Ave and Beverly - we are on the same side of the street as PATH). With the cold weather the past couple of weeks we've seen individuals in the encampments with fires going to keep warm and have been very nervous the fires will spread to the power lines which they have in the past.

The fire department came and put the fire out, which had spread to a power pole line. Now there is a large amount of burnt debris spilling into the street.

I will report this on 311 but is there any other kind of service, hotline, or preventative measures the city can take to address this hazard?

Best wishes,
[REDACTED]

Hi [REDACTED].

Thank you for reaching out and following up.

If you can send me the service request and the picture of the debris I can flag for it to be expedited.

Hi Juan,
Here's my latest service request #1-1529852881 as well as photos.
There burnt debris is all over the sidewalk and is falling into the street and the encampment has gotten larger around the burnt site as well.
Other business nearby as also have submitted service requests as well.

Thank you for looking into this.

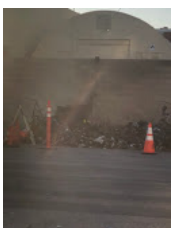

Best,
[REDACTED]
